EFG-Hermes KSA  
March 2025

---

## INTRODUCTION

Risk Management services is provided to EFG-Hermes KSA through EFG HOLDING SAE. EFG-Hermes KSA, a closed joint stock company established under license number 06016-37 issued by the Capital Market Authority in Saudi Arabia whose registered office is in Sky Towers, Northern Tower, Olaya, Riyadh, Saudi Arabia, which is regulated by the Saudi's Capital Market Authority

### Purpose

The purpose of the qualitative disclosure for KSA risk management is to show how EFG Hermes manage and monitor its risk exposure through:

- i. Establishing an appropriate risk environment
- ii. Operating under a sound of granting process
- iii. Ensuring adequate controls over credit risk.

## I - CREDIT RISK

### Definition of Credit Risk

Credit risk is simply defined as the potential that a bank or firm borrower or counterparty will fail to meet its financial obligations.

### Credit Risk Capital requirement

EFG Hermes KSA has adopted the Standardized Approach for measuring minimum capital requirement for credit risk. Under this approach, exposures are assigned to portfolio segments based on the type of counterparty. The major portfolios defined are banks, retail, equity, and others (including high net worth individuals). Each segment has counterparty risk weights ranging from 0% to 150% depending on ratings assigned by qualified external credit assessment agencies, if any.

### Objectives

The main objectives of Credit Risk are:

#### A. Risk Reduction :

Our primary objective of credit risk is to reduce the risks inside the Firm as much as possible with the help of:

- i. Credit analysis and reviews; through gathering information to determine the risks involved in the lending.
- ii. Detailed information about the credit approval process, suspensions & alert notifications.

#### B. Internal communication and departmental coordination :

Building strong internal communication and coordination between credit risk team and other relevant parties inside the Firm such as: Front office team, Operations, Compliance, Internal Audit...Etc.

This allows and helps us to fulfil all the obligations in risk reduction, also allows operating more efficiently by providing clear instruction on how we should perform or act.

## Responsibilities

- Due Diligence process and Credit Risk Analysis overview using quantitative and qualitative factors, for all our Counterparties.
- Monitoring overdraft & Margin trading portfolio daily.
- Measures and monitors concentration limit in Margin trading's individuals and portfolios.
- Prepare the Quarterly Highly Liquid Stocks used for Margin trading business in Saudi Stock Market.
- Report and escalate all breaches and findings to Top Management
- Make recommendations to chief risk officer, front office teams, or top Management if required.
- Gauging clients' risk appetite through risk tolerance questionnaire assess clients' reaction to market volatility & their financial resources adequacy.

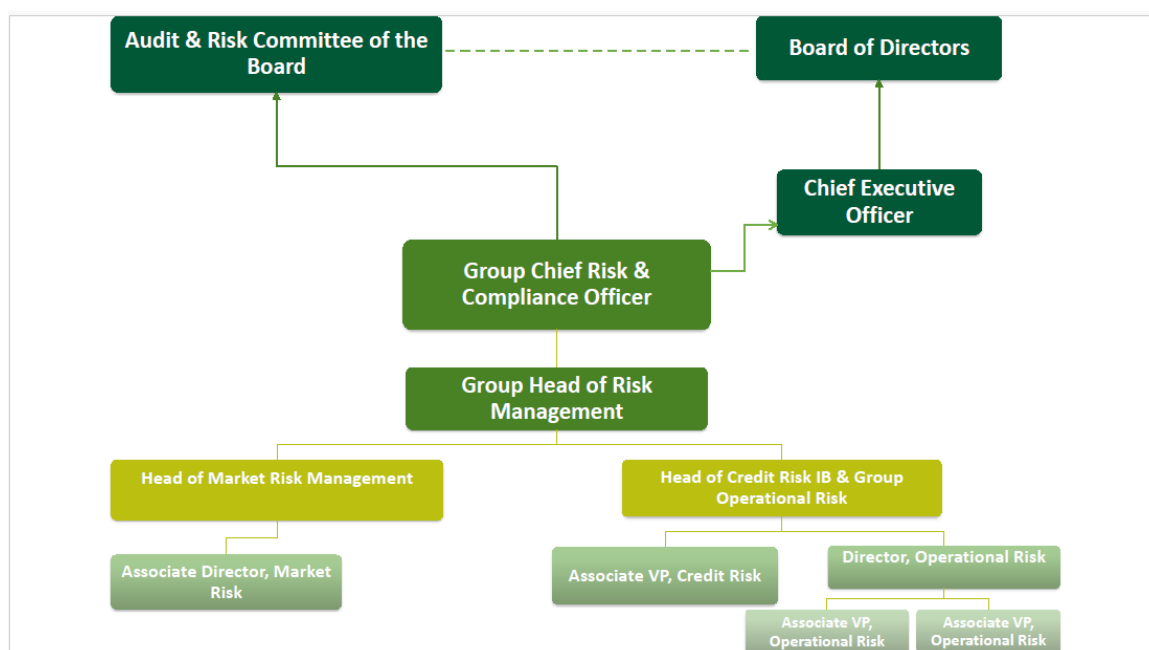

## II – OPERATIONAL RISK

### Operational Risk capital Requirement

In compliance with CMA requirements, the Firm has adopted the Expenditure based approach (EBA). This is a more conservative approach as it leads to a higher capital charge than the Basic Indicator Approach (BIA).

- I. EFG Hermes has established a Group Operational Risk Framework that focuses on the coordination of consistent policy, tools and practices throughout EFG Holding for the management, measurement, monitoring and reporting of relevant operational risks. This team is also responsible for the overall operational risk measurement methodology, and knowledge and experience are shared throughout the Group to maintain a coordinated approach. We adopt a risk-based approach to the design and implementation of our internal control framework.

II.

- 
- III. Operational Risk & Control Assessment provides an understanding of the operational risk profile of the entity in question, and to determine the effect of mitigating controls in the assessed entity. Risks are identified, assessed and prioritized by operational risk team and entity's managers. A formal annual assessment is carried out in each function with the assistance of the Operational Risk Function. The aim of this assessment is to produce a risk map for the division. The register contains the output from the process. Each risk that has been identified must be categorized with reference to Basel II categorization of operational risk embedded in SWORD "Operational Risk System".
- Risk Control Assessments (RCAs) play an essential role in an effective operational risk framework. The goal of RCAs is to enable organizations proactively and efficiently:
- a. Identify key threats to business objectives
  - b. Determine the effectiveness of controls
  - c. Mitigate outstanding gaps

### III - MARKET RISK

Market risk is minimal due to the following:

- EFG KSA does not have a trading book. FY2024 exposure is zero.
- Our currency risk is limited to our US dollar exposure which as of 31 December 2024 stands at USD 0.46 million, this exposure subjects us to market risk in the event SAR appreciate against USD, we believe however that this is a remote possibility since SAR is pegged to USD. All cash position is held in current accounts.
- Commodities exposure is zero. We don't have appetite or limits for commodities.

### IV - OTHER TYPE OF RISKS

- Non-trading activities (Margin trading receivable) FY2024 exposure was SAR 68.6 million collateralized with SAR 426.7 million of liquid stocks. non-Trading Activities are subject to credit risk capital requirements
- Liquidity Risk: EFG Hermes KSA maintains its liquidity in form of Cash only with Banks. As of December 31, 2024, the Cash position & deposit with clearing member is sufficient to cover the whole company current Liabilities 1.7 times and to cover the total liabilities 1.6 times. No gap or mismatch between our Assets & Liabilities.
- Counterparty Risk: the minimum capital requirement for our counterparty is subject to credit risk capital requirement, all our Saudi Counterparties are rated investment grade by International Rating Agencies.
- EFG Hermes KSA and its Holding company does not have any material or legal impediments affecting the prompt transfer of capital or repayment of liabilities
